International long Distance for mobile phones

Today's mobile phone plans are great, unlimited anytime minutes, unlimited long distance, No roaming charges and No surprises. UNLESS, you try to call internationally, then you have to pay extreme per-minute long distance charges.

*With **NEWERA** – you get what you pay for!*

- **NEWERA** – the innovative approach to international long distance calling with your cell phone. Whenever you need to make an international long distance call, you simply call one of our FREE access numbers, and then enter the international phone number you need to dial.
- There are no **calling card numbers** to dial, no access codes to remember, and best of all, you can **save up to 75%** on your long distances charges.

Features:

One-touch dialing; dial a local North American access number and your cell phone is automatically recognized to dial anywhere in the world

- **Super low** international rates
- Same low rates **24 hours a day, 7 days a week**
- **NO** activation, connection, or monthly fees
- **NO** service charges or hidden surcharges
- **NO contracts to sign** and no need to “recharge” your account
- **6-second** increment billing, **30** second minimum
- **Online** account management
- **Detailed statements** provided via mail email and on the web
- Convenient **credit card** billing at the end of the month
- **24 hour customer service**
